MADE ON EARTH

ABOUT US

JOMA9 — excellent workmanship and care.

More than 30 years ago two Krievins brothers Ugis and Juris, dedicated woodworkers and furniture makers, founded a family company. Since then they have been developing products of individual design for their clients and manufactured furniture that had soul.

“We create furniture that is reflection of our Client’s personality and lifestyle.”

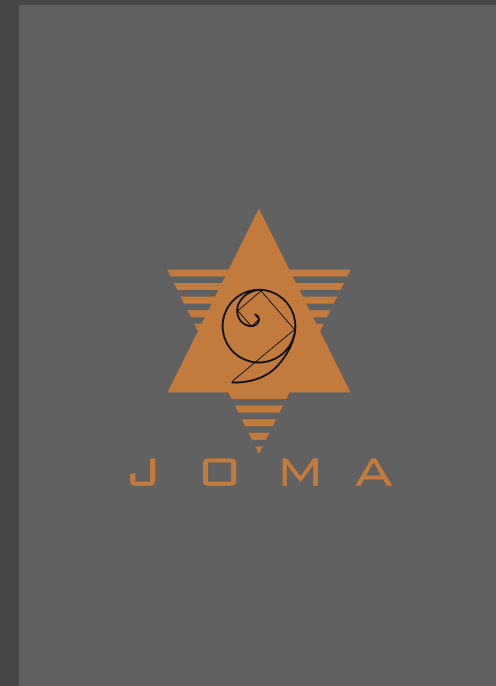

JOMA9 FURNITURE

it is handmade and a guarantee of excellent quality.

A significant turning point in the development of the family business was the founding of the company JOMA9 a few years ago with the aim to enter international markets.

Furniture created by talented professionals of JOMA9 is hand-made and of the highest quality, as well as strikingly different from mass-production. The dedicated team of JOMA9 always strives for perfection, introducing new techniques, applying ancient symbols and embedding creative message in every detail.

PRIORITIES
OF JOMA9

- 100% wooden elements - solid oak
- 100% high quality natural materials — Eco Lifestyle
- Exclusively handmade
- A unique handcrafting technique to provide "antique" finish
- Signs of the Universe embedded into every piece of collection
- Compliance with the Golden Ratio proportions
- In-house design and implementation
- Original and functional design, synergy with nature, no harmful waste
- Creative, flexible and client-focused approach

The highlight of this year for JOMA9 has been creation of the new collection "Signs of God".

For several years, devoted professionals have been developing a collection of bedroom furniture, with the aim to make it an integral part of the surrounding nature, its hand-made reflection and organic continuation.

Imbued with Japanese values and the "wabi-sabi" aesthetics, the JOMA9 team decided to apply this concept while creating an original new collection with the main focus on synergy with nature, meditation and self-discovery.

COLLECTION

“Signs of God”

Price for the set — 9 000 EUR (VAT 21% included)

“SIGNS OF GOD”

elegant harmony

A new collection - "Signs of God"- has been added to the company's portfolio. The main idea of the project was to create a modern, elegant and harmonious collection, inspired by "wabi-sabi" — traditional Japanese aesthetics and values.

Wabi means “rustic simplicity or understated elegance”, while Sabi — “taking pleasure in the imperfect”. Those two meanings have merged into a single "wabi-sabi", so "imperfection" and "harmony" are the main aesthetic concepts of the "Signs of God" collection.

Created with excellent workmanship and care the bedroom of the "Signs of God" collection provides a space for relaxation through the balance of body, mind and soul. Ancient powerful signs, clean lines, a century-old oak texture are the main features of this stunning minimalist bedroom, attractively designed by JOMA9.

BED

size 180 X 200 cm — 1 piece

BEDSIDE TABLES

2 pieces

MULTIFUNCTIONAL TABLE

consists of 2 parts — 1 piece

NOBLE OAK

collections "Signs of God" key element *

Nothing compares to the warmth and stability of natural wood furniture and Latvian brand JOMA9 prefers real wood. The main material used in the manufacture of the "Signs of God" collection is solid oak, which is at least 100 years old.

Why this particular material was chosen? The main qualities of oak are strength, durability, environmental friendliness and amazing aesthetic appeal. Oak wood color, texture, pleasant smell have positive effect on people and environment quality.

** Quality guarantee!*

About the “wabi-sabi” philosophy

WHAT IS “WABI-SABI”

In traditional Japanese aesthetics *wabi-sabi* (侘寂) is a concept centered on the acceptance of transience and imperfection. The idea is that being surrounded by natural and unique objects helps us connect to our real world and our true identity. In today's Japan, wabi-sabi is often interpreted as "wisdom in natural simplicity".

Characteristics of the wabi-sabi aesthetic include asymmetry, roughness, simplicity, economy, modesty, intimacy, and appreciation of the ingenuous integrity of natural objects and processes.

“

More and more people make conscious choice of products they bring to their homes taking care of the environment.

We create unique furniture supporting the green movement and efficient use of the Planet's resources.

We are responsible for the sustainability of our environment and the future of the Planet!”

”
